

Why Northcraft Analytics for Cloud Infrastructure?

Northcraft

- Compatible with Amazon EC2, Microsoft Azure and Google Cloud Services.
- Reduce your Cloud spend by 2-9% per year.
- Combine billing and operational data into a single view.
- Add analytical reporting capability for billing & operations for your Cloud instances.
- Drill down to specific oversized or "zombie" instances on massive data sets.
- View 13 months of billing data, with associated instances at aggregate and granular level.
- NO BI development required
- Reasonable enterprise licensing, rather than a percentage of your bill.
- Pre-built analytical solution that accesses your data securely on-premises.
- Data Warehouse, Cubes included, and ETL included
- Incredible query and report performance through innovative big data architecture.
- Based on proven BI Technology from Microsoft
